

MOTHERS'
MILK BANK
CALIFORNIA

**Advancing health and
wellness with safe donor milk**

**Get lifesaving nutrients
for your baby or
a baby in your care**

CAMilkBank.org

**Breastmilk gives babies the best start
for optimal growth and development,
protecting against illness,
supporting brain development,
and aiding digestion.**

All babies benefit from the essential
nourishment of breast milk
for the best possible start in life.
If you are unable to provide enough
breast milk, donor milk is the
next best option.

**We're here to support you and
ensure your baby gets the
nourishment they need.**

Our human donor milk is rigorously
screened, tested, pasteurized,
and stored in accordance with the
guidelines established by the
Human Milk Banking Association of
North America (HMBANA).
